1. Operations and Organization

Operations

Rexahn Pharmaceuticals, Inc. (the "Company"), a Delaware corporation, is a biopharmaceutical company whose principal operations are the discovery, development and commercialization of innovative treatments for cancer and other medical needs. The Company had an accumulated deficit of \$102,864,709 at September 30, 2015 and anticipates incurring losses through fiscal year 2015 and beyond. The Company has not yet generated commercial revenues and has funded its operating losses to date through the sale of shares of its common stock and warrants to purchase shares of its common stock, convertible debt, financings, interest income from cash, cash equivalents and marketable securities, and proceeds from reimbursed research and development costs. The Company believes that its cash, cash equivalents, and marketable securities, will be sufficient to cover its cash flow requirements for its current activities for at least the next 12 months. Management believes it has the capability of managing the Company's operations within existing cash and marketable securities available by focusing on select research and development activities, selecting projects in conjunction with potential financings and milestones, and efficiently managing its general and administrative affairs.

Basis of Presentation

The accompanying unaudited condensed financial statements of the Company have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the Company's financial position as of September 30, 2015 and December 31, 2014 and of the results of operations and comprehensive loss for the three and nine months ended September 30, 2015, and cash flows for the nine months ended September 30, 2015 and 2014 have been included. Operating results for the three and nine months ended September 30, 2015 are not necessarily indicative of results that may be expected for any other interim period or the full fiscal year ending December 31, 2015. The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 Form 10-K"). Information included in the condensed balance sheet as of December 31, 2014 has been derived from the Company's audited financial statements for the year ended December 31, 2014 included in the 2014 Form 10-K.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates are based on management's best knowledge of current events and actions the Company may undertake in the future. Actual results may ultimately differ from these estimates. These estimates are reviewed periodically, and as adjustments become necessary, they are reported in earnings in the period in which they become available.

Reclassification

Certain amounts in the prior year's financial statements have been reclassified to conform to the current year's presentation with no material effect on the financial statements.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

2. Recent Accounting Pronouncements Affecting the Company

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers," a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The standard's core principle is that a company should recognize revenue when it transfers goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services, and provides a revenue recognition framework in accordance with this principle. On August 12, 2015, the FASB issued ASU 2015-14, which defers the effective date of ASU 2014-09 by one year to December 15, 2017 for annual reporting periods beginning after that date and interim periods therein. Early adoption of the standard is permitted, but not before the original effective date of December 15, 2016. The Company is currently evaluating the impact that the adoption of this guidance will have on its financial statements and future operating results.

Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern

In August 2014, the FASB issued ASU 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern," which requires management to perform interim and annual assessments as to the entity's ability to continue as a going concern and provides related disclosure guidance. ASU 2014-15 will be effective for reporting periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating the impact the adoption of this guidance will have on its financial statements.

Notes to Condensed Financial Statements (Unaudited)

3. Marketable Securities

Marketable securities are considered "available-for-sale" in accordance with FASB Accounting Standard Codification ("ASC") 320, "Debt and Equity Securities," and thus are reported at fair value in the Company's accompanying balance sheet, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity. Amounts reclassified out of accumulated other comprehensive income (loss) into realized gains and losses are accounted for on the basis of specific identification and are included in other income or expense in the statement of operations. The Company classifies such investments as current on the balance sheet as the investments are readily marketable and available for use in current operations.

The following table shows the Company's marketable securities' adjusted cost, gross unrealized gains and losses, and fair value by significant investment category as of September 30, 2015 and December 31, 2014:

	September 30, 2015							
				Gross		Gross		
		Cost	U	Inrealized	J	Jnrealized		Fair
		Basis		Gains		Losses		Value
Certificates of Deposit	\$	6,480,000	\$	6,869	\$	-	\$	6,486,869
Corporate Bonds		2,519,900		282		(382)		2,519,800
Total Marketable Securities	\$	8,999,900	\$	7,151	\$	(382)	\$	9,006,669
				Decembe	r 31	, 2014		
	_			Decembe	r 31	, 2014 Gross		
	_	Cost	Į					Fair
	_	Cost Basis	U	Gross		Gross		Fair Value
Certificates of Deposit	\$		U \$	Gross Inrealized		Gross Unrealized	\$	
Certificates of Deposit Commercial Paper	\$	Basis		Gross Jnrealized Gains	Ţ	Gross Unrealized Losses	\$	Value
	\$	Basis 18,865,000		Gross Jnrealized Gains 60	Ţ	Gross Unrealized Losses (26,789)	\$	Value 18,838,271

The Company typically invests in highly-rated securities, with the primary objective of minimizing the potential risk of principal loss. As of September 30, 2015, the Company had one corporate bond in a loss position with a fair value of \$1,005,290 and an unrealized loss of \$382, which has been an unrealized loss for greater than 12 months. The Company does not intend to sell its marketable securities in an unrealized loss position. Based upon this security's fair value relative to the cost, high rating, and volatility of fair value, the Company considers the decline in market value of this marketable security to be temporary in nature and does not consider it other-than-temporarily impaired, and anticipates that the Company will recover the entire amortized cost basis.

Notes to Condensed Financial Statements (Unaudited)

The amortized cost and fair value of marketable securities at September 30, 2015 by contractual maturity are shown below:

Maturity	Cost Basis		F	air Value
Less than 1 year	\$	8,519,900	\$	8,525,822
1 to 5 years		480,000		480,847
Total Marketable Securities	\$	8,999,900	\$	9,006,669

4. Prepaid Expenses and Other Current Assets

	September 30, 2015		December 31, 2014	
Deposits on contracts	\$	675,220	\$	369,811
Prepaid expenses and other current assets	_	800,537		361,176
	\$	1,475,757	\$	730,987

Deposits on contracts consist of deposits on research and development contracts for services that had not been incurred as of the balance sheet date. Prepaid expenses and other current assets include prepaid general and administrative expenses, such as insurance, rent, investor relations fees and compensatory stock issued for services not yet incurred as of the balance sheet date.

5. Equipment, Net

	September 30, 2015		30, December 2014	
Furniture and fixtures	\$	78,794	\$	70,320

Payroll liabilities		170,325		617,066
	\$	3,238,063	\$	2,459,263

7. Deferred Research and Development Arrangement

Rexgene Biotech Co., Ltd.

In 2003, the Company entered into a collaborative research agreement with Rexgene Biotech Co., Ltd. ("Rexgene"), a shareholder. Rexgene is engaged in the development of pharmaceutical products in Asia and has agreed to assist the Company with the research, development and clinical trials necessary for registration of the Company's drug candidate Archexin in Asia. This agreement provides Rexgene with exclusive rights to license, sublicense, make, have made, use, sell and import Archexin in Asia. In accordance with the agreement, Rexgene paid the Company a one-time fee of \$1,500,000 in 2003. The agreement terminates at the later of 20 years or the term of the patent.

The Company is using 20 years as its basis for recognition. The amortization reduces research and development expenses for the periods presented. Research and development expenses were reduced by \$18,750 and \$56,250 for the three and nine months ended September 30, 2015 and 2014, respectively. The remaining \$543,750 and \$600,000 to be amortized at September 30, 2015 and December 31, 2014, respectively, are reflected as a deferred research and development arrangement on the balance sheet. The payment from Rexgene is being used in the cooperative funding of the costs of development of Archexin. Royalties of 3% of net sales of licensed products will become payable by Rexgene to the Company on a quarterly basis once commercial sales of Archexin begin in Asia. The product is still under development and commercial sales in Asia are not expected to begin until at least 2016. Under the terms of the agreement, Rexgene does not receive royalties on the Company's net sales outside of Asia.

Notes to Condensed Financial Statements (Unaudited)

8. Other Liabilities

Deferred Lease Incentive

On June 29, 2009, the Company entered into a five-year office lease agreement, which is further discussed in Note 14. The lessor agreed to grant a leasehold improvement allowance of \$100,000 to the Company to be used for the construction cost of improvements to the leased property, which included architectural and engineering fees, government agency plan check, permit and other fees, sales and use taxes, testing and inspection costs and telephone and data cabling and wiring in the premises. The Company accounted for the benefit of the leasehold improvement allowance as a reduction of rental expense over the five-year term of the office lease.

On June 7, 2013, the Company entered into the first amendment to the lease agreement, also discussed in Note 14. According to the terms of the amendment, the Company extended the lease term until June 30, 2019. The lessor agreed to grant an additional leasehold improvement allowance of \$54,660 to the Company to be used for further construction of the leased property, furniture and equipment. The Company accounts for this benefit, including the unamortized portion from the original lease agreement, as a reduction of rental expense over the six-year amended term of the lease.

The following table sets forth the cumulative deferred lease incentive:

	Se	30, 2015	De	ecember 31, 2014
Deferred lease incentive	\$	154,660	\$	154,660
Less accumulated amortization	_	(107,997)		(98,665)
Balance	\$	46,663	\$	55,995

Deferred Office Lease Expense

The amended lease agreement provides for an initial annual base rent with annual increases over the next six years. The Company recognizes rental expense on a straight-line basis over the term of the lease, which resulted in a deferred rent liability of \$63,069 and \$68,960 as of September 30, 2015 and December 31, 2014, respectively.

9. Net Loss per Common Share

Basic loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding for the period. Diluted loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding, plus the number of common share equivalents that would be dilutive. As of September 30, 2015 and December 31, 2014, there were stock options and warrants to acquire, in the aggregate, 25,983,303 and 24,606,677 shares of the Company's common stock, respectively, that are potentially dilutive. However, diluted loss per share for all periods presented is the same as basic loss per share because the inclusion of common share equivalents would be anti-dilutive.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

10. Common Stock

On February 10, 2015, the Company issued 75,000 shares of stock to a vendor in exchange for services. The market value of the stock issued was \$0.75, and the total market value of the issuance was \$56,250.

On March 16, 2015, the Company entered into an at market ("ATM") issuance sales agreement (the "Sales Agreement") with MLV & Co. LLC ("MLV") pursuant to which the Company may issue and sell shares of its common stock having an aggregate offering price of up to \$40 million from time to time, at its option, through MLV as its sales agent, subject to certain terms and conditions. Any shares sold will be sold pursuant to the Company's effective shelf registration statement on Form S-3 (File No. 333-196255), as supplemented by a prospectus supplement dated March 16, 2015. The Company will pay MLV a commission of 3.0% of the gross proceeds of the sale of any shares sold through MLV. For the nine months ended September 30, 2015, the Company sold 1,407,072 shares of common stock pursuant to the Sales Agreement for \$1,042,573 in gross proceeds at a weighted average price of \$0.7410 per share. Net proceeds to the Company were \$1,005,715 after deducting commissions and other transaction costs. There were no ATM transactions during the three months ended September 30, 2015.

On July 1, 2015, the Company issued 75,000 shares of stock to a vendor in exchange for services. The market value of the stock issued was \$0.61, and the total market value of the issuance was \$45,750.

During the nine months ended September 30, 2015, option holders exercised stock options to purchase shares of the Company's common stock for cash of \$708,617, and the Company issued 889,428 shares.

During the nine months ended September 30, 2015, warrant holders exercised stock warrants to purchase shares of the Company's common stock for cash of \$22,325, and the Company issued 47,300 shares.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

11. Stock-Based Compensation

As of September 30, 2015, the Company had 12,824,732 options outstanding.

At the Company's Annual Meeting of the Stockholders held on June 10, 2013, the Company's stockholders voted to approve the Rexahn Pharmaceuticals, Inc. 2013 Stock Option Plan (the "2013 Plan"). Under the 2013 Plan, the Company grants stock options to key employees, directors and consultants of the Company. A total of 17,000,000 shares of common stock have been reserved for issuance pursuant to the 2013 Plan. As of September 30, 2015, there were 7,046,232 options outstanding under the 2013 Plan, and 9,946,268 shares were available for issuance from the 2013 Plan.

On August 5, 2003, the Company established a stock option plan (the "2003 Plan"). Under the 2003 Plan, the Company granted stock options to key employees, directors and consultants of the Company. With the adoption of the 2013 Plan, no new stock options may be issued under the 2003 Plan, but previously issued options under the 2003 Plan remain outstanding until their expiration. As of September 30, 2015, there were 5,778,500 outstanding options under the 2003 Plan.

For the majority of the grants to employees under both the 2003 Plan and 2013 Plan, the vesting period is either (i) 30%, 30% and 40% on the first, second and third anniversaries of the grant date, respectively, or (ii) 25% each on the first four anniversaries. Options expire between five and ten years from the date of grant. For grants to non-employee consultants of the Company, the vesting period is between one and three years, subject to the fulfillment of certain conditions in the individual stock agreements, or 100% upon the occurrence of certain events specified in the individual stock agreements.

Accounting for Awards

The Company's results of operations for the three months ended September 30, 2015 and 2014 include stock-based compensation expense totaling \$225,316 and \$163,191 respectively. The Company's results of operations for the nine months ended September 30, 2015 and 2014 include stock based compensation expense totaling \$769,668 and \$424,059, respectively. Such amounts have been included in the statement of operations in general and administrative and research and development expenses. No income tax benefit has been recognized in the statement of operations for stock-based compensation arrangements as the Company has provided for a 100% valuation allowance on its deferred tax assets.

Stock option compensation expense is the estimated fair value of options granted amortized on a straight-line basis over the requisite vesting service period for the entire portion of the award.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

Summary of Stock Compensation Expense Recognized

Total stock-based compensation recognized by the Company for the three and nine months ended September 30, 2015 and 2014 is as follows:

	 Three Months Ended September 30,		Nine Months Ende September 30,				
	 2015		2014		2015		2014
Statement of operations line item:							
General and administrative	\$ 127,203	\$	128,945	\$	492,908	\$	307,461
Research and development	98,113		34,246		276,760		116,598
Total	\$ 225,316	\$	163,191	\$	769,668	\$	424,059

Summary of Stock Option Transactions

There were 4,201,316 stock options granted at exercise prices ranging from \$0.54 to \$0.89 with an aggregate fair value of \$1,994,893 during the nine months ended September 30, 2015. There were 2,398,499 stock options granted at exercise prices ranging from \$0.83 to \$1.35 with an aggregate fair value of \$1,671,644 during the nine months ended September 30, 2014.

The fair value of options at the date of grant was estimated using the Black-Scholes option pricing model. The Company took into consideration guidance under ASC 718, "Compensation-Stock Compensation" and Staff Accounting Bulletin No. 107 ("SAB 107") when reviewing and updating assumptions. The expected volatility is based upon historical volatility of the Company's stock. The expected term is based upon the simplified method as allowed under SAB 107.

Notes to Condensed Financial Statements (Unaudited)

The assumptions made in calculating the fair values of options are as follows:

	Nine Months Ended	Nine Months Ended September 30,			
	2015	2014			
Black-Scholes assumptions					
Expected dividend yield	0%	0%			
Expected volatility	72-80%	92-96%			
Risk free interest rate	1.2-1.7%	1.49-1.75%			
Expected term (in years)	5-6 years	5 years			

The following table summarizes share-based transactions:

	2015 2014					
			Weighted		Weig	ghted
	Number of		Average	Number of	Ave	rage
	Options	E	xercise Price	Options	Exercis	se Price
Outstanding at						
January 1	11,400,806	\$	0.93	9,356,795	\$	0.92
Granted	4,201,316		0.69	2,398,499		0.97
Exercised	(889,428)		0.80	(448,693)		0.80
Expired	(1,741,879)		1.19	(35,795)		0.24
Cancelled	(146,083)		0.81	-		-
	·					
Outstanding at September 30	12,824,732	\$	0.83	11,270,806	\$	0.93

The following table summarizes information about stock options outstanding as of September 30, 2015 and December 31, 2014:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at September 30, 2015	12,824,732	\$ 0.83	7.1 years	\$ 360,000
Exercisable at September 30, 2015	6,788,800	\$ 0.91	5.2 years	\$ 305,000
Outstanding at December 31, 2014	11,400,806	\$ 0.93	5.2 years	\$ 842,300
Exercisable at December 31, 2014	8,167,307	\$ 0.97	3.6 years	\$ 613,550

Notes to Condensed Financial Statements (Unaudited)

The total intrinsic value of the options exercised was \$99,895 and \$115,528 for the nine months ended September 30, 2015 and 2014, respectively. There were no options exercised during the three months ended September 30, 2015 and 2014. The weighted average fair value of the options granted was \$0.47 and \$0.70 for the nine months ended September 30, 2015 and 2014, respectively.

A summary of the Company's unvested options as of September 30, 2015 and changes during the nine months ended September 30, 2015 is presented below:

	2	2015			
	Number of Options	Weighted Average Fair Value at Grant Date			
Unvested at January 1, 2015	3,233,499	\$ 0.60			
Granted	4,201,316	\$ 0.47			
Vested	(1,253,050)	\$ 0.59			
Cancelled	(145,833)	\$ 0.57			
Unvested at September 30, 2015	6,035,932	\$ 0.51			

As of September 30, 2015 and December 31, 2014, there was \$2,556,845 and \$1,423,150 of total unrecognized compensation cost, respectively, related to all unvested stock options, which is expected to be recognized over a weighted average vesting period of 2.7 and 2.2 years, respectively.

12. Warrants

As of September 30, 2015, warrants to purchase 13,158,571 shares were outstanding, having exercise prices ranging from \$0.41 to \$1.50 and expiration dates ranging from July 5, 2016 to January 21, 2019.

		2015		2014				
	Number of warrants	Weighted average exercise price	Number of warrants	Weighted average exercise price				
Balance, January 1	13,205,871	\$ 1.07	24,968,868	\$ 0.86				
Issued during the period	-	\$ -	4,761,905	\$ 1.28				
Exercised during the period	(47,300)	\$ 0.47	(12,058,871)	\$ 0.52				
Expired during the period		\$ -	(3,687,698)	\$ 1.71				
Balance, September 30	13,158,571	\$ 1.07	13,984,204	\$ 1.06				

At September 30, 2015 and December 31, 2014, the average remaining contractual life of the outstanding warrants was 2.5 and 3.2 years, respectively.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

The warrants issued to investors in the March 2011, December 2012 and previous offerings contain a provision for net cash settlement in the event that there is a fundamental transaction (contractually defined as a merger, sale of substantially all assets, tender offer or share exchange). If a fundamental transaction occurs in which the consideration issued consists principally of cash or stock in a non-public company, then the warrant holder has the option to receive cash, equal to the fair value of the remaining unexercised portion of the warrant. Due to this contingent redemption provision, the warrants require liability classification in accordance with ASC 480 and are recorded at fair value. The warrants issued to investors in the July 2013, October 2013 and January 2014 offerings contain a fundamental transaction provision, but the warrant holders only have an option as to the type of consideration received if the holders of common stock receive an option as to their consideration. In addition, the warrants issued in the July 2013, October 2013, January 2014 and previous offerings contain a cashless exercise provision that is exercisable only in the event that a registration statement is not effective. That provision may not be operative if an effective registration statement is not available because an exemption under the U.S. securities laws may not be available to issue unregistered shares. As a result, net cash settlement may be required, and the warrants require liability classification.

ASC 820 provides requirements for disclosure of liabilities that are measured at fair value on a recurring basis in periods subsequent to the initial recognition. Fair values for warrants are determined using the Binomial Lattice ("Lattice") valuation technique. The Lattice model provides for dynamic assumptions regarding volatility and risk-free interest rates within the total period to maturity. Accordingly, within the contractual term, the Company provides multiple date intervals over which multiple volatilities and risk free interest rates are used. These intervals allow the Lattice model to project outcomes along specific paths that consider volatilities and risk free rates that would be more likely in an early exercise scenario.

Significant assumptions are determined as follows:

<u>Trading market values</u>—Published trading market values;

Exercise price—Stated exercise price;

Term—Remaining contractual term of the warrant;

<u>Volatility</u>—Historical trading volatility for periods consistent with the remaining terms;

Risk-free rate—Yields on zero coupon government securities with remaining terms consistent with the remaining terms of the warrants

Due to the fundamental transaction provision, which could provide for early redemption of the warrants, the model also considers the probability the Company would enter into a fundamental transaction during the remaining term of the warrant. Because the Company is not yet achieving positive cash flow, management believes the probability of a fundamental transaction occurring over the term of the warrant is unlikely and therefore estimates the probability of entering into a fundamental transaction to be 5%. For valuation purposes, the Company also assumes that if such a transaction does occur, it is more likely to occur towards the end of the term of the warrants.

The significant unobservable inputs used in the fair value measurement of the warrants include management's estimate of the probability that a fundamental transaction may occur in the future. Significant increases (decreases) in the probability of occurrence would result in a significantly higher (lower) fair value measurement.

Notes to Condensed Financial Statements (Unaudited)

The following table summarizes the fair value of the warrants as of the respective balance sheet dates:

	Fair V	alue as of:
Warrant Issuance:	September 30, 201	15 December 31, 2014

Notes to Condensed Financial Statements (Unaudited)

13. Income Taxes

No provision for federal and state income taxes was required for the three and nine months ended September 30, 2015 and 2014 due to the Company's operating losses and increased deferred tax asset valuation allowance. At September 30, 2015 and December 31, 2014, the Company had unused net operating loss carry-forwards of approximately \$95,008,000 and \$81,619,000, respectively, which expire at various dates through 2035. Some of this amount may be subject to annual limitations under certain provisions of the Internal Revenue Code related to "changes in ownership."

As of September 30, 2015 and December 31, 2014, the deferred tax assets related to the aforementioned carry-forwards have been fully offset by valuation allowances, because significant utilization of such amounts is not presently expected in the foreseeable future.

Deferred tax assets and valuation allowances consist of:

	September 30, 2015	December 31, 2014
Net Operating Loss Carryforwards	\$ 37,053,000	\$ 31,831,000
Stock Compensation Expense	2,481,000	2,221,000
Book tax differences on assets and liabilities	323,000	416,000
Valuation Allowance	(39,857,000)	(34,468,000)
Net Deferred Tax Assets	\$ -	\$ -

The Company files income tax returns in the U.S. federal and Maryland state jurisdictions. Tax years for fiscal 2012 through 2014 are open and potentially subject to examination by the federal and Maryland state taxing authorities.

Notes to Condensed Financial Statements (Unaudited)

14. Commitments and Contingencies

- a) The Company has contracted with various vendors for research and development services. The terms of these agreements usually require an initial fee and monthly or periodic payments over the term of the agreement, ranging from two months to 36 months. The costs to be incurred are estimated and are subject to revision. As of September 30, 2015, the total estimated cost to complete these agreements was approximately \$10,180,000. All of these agreements may be terminated by either party upon appropriate notice as stipulated in the respective agreements.
- b) On June 22, 2009, the Company entered into a License Agreement with Korea Research Institute of Chemical Technology ("KRICT") to acquire the rights to all intellectual property related to Quinoxaline-Piperazine derivatives that were synthesized under a Joint Research Agreement. The initial license fee was \$100,000, all of which was paid as of December 31, 2009. The License Agreement with KRICT calls for a one-time milestone payment of \$1,000,000 within 30 days after the first achievement of marketing approval of the first commercial product arising out of or in connection with the use of KRICT's intellectual property. As of September 30, 2015, the milestone has not occurred.
- c) The Company has the following lease agreements:

Office Space Lease

On June 29, 2009, the Company signed a five-year commercial lease agreement for 5,466 square feet of office space in Rockville, Maryland. Under the lease agreement, the Company pays its allocable portion of real estate taxes and common area operating charges. Rent paid under this lease during the three months ended September 30, 2015 and 2014 was \$51,110 and \$42,367, respectively, and rent paid during the nine months ended September 30, 2015 and 2014 was \$151,227 and \$104,999, respectively.

On June 7, 2013, the Company entered into the first amendment to the lease agreement. According to the terms of this amendment, the Company extended the lease term until June 30, 2019. The amended base rent was \$100,210 and is subject to annual base rent increases over the remaining term of the lease.

On July 26, 2014 the Company entered into the second amendment to the lease agreement. According to the terms of this amendment, the Company leased an additional 1,637 square feet of office space, beginning on September 1, 2014 and ending on August 31, 2015. On May 6, 2015, the Company renewed the lease for this space for an additional year, beginning on September 1, 2015 and ending on August 31, 2016.

Prior Laboratory Lease

On August 26, 2014 and June 24, 2013, the Company signed one-year renewals to use laboratory space commencing on July 1, 2014 and 2013, respectively. The lease required monthly rental payments of \$4,554. Rent paid under the Company's lease during the nine months ended September 30, 2015 and 2014 was \$27,324 and \$40,986, respectively.

Current Laboratory Lease

On April 20, 2015, the Company signed a five-year lease agreement for 2,552 square feet of laboratory space commencing on July 1, 2015 and ending on June 30, 2020. Under the lease agreement, the Company pays its allocable portion of real estate taxes and common area operating charges. Rent paid under this lease during the three and nine months ended September 30, 2015 was \$15,312.

Notes to Condensed Financial Statements (Unaudited)

Future rental payments over the next five years for all leases are as follows:

For the remaining three months ending December 31:	2015	\$ 66,613
For the year ending December 31:	2016	269,733
	2017	260,217
	2018	233,923
	2019	152,955
	2020	 34,468
	Total	\$ 1,017,909

- d) The Company has established a 401(k) plan for its employees. The Company has elected to match 100% of the first 3% of an employee's compensation plus 50% of an additional 2% of the employee's deferral. Expense related to this matching contribution aggregated to \$33,997 and \$24,574 for the three months ended September 30, 2015 and 2014, respectively, and \$98,155 and \$69,858 for the nine months ended September 30, 2015 and 2014, respectively.
- e) In July 2013, the Company entered into an exclusive license agreement with the University of Maryland, Baltimore for a novel drug delivery platform, Nano-Polymer Drug Conjugate Systems. RX-21101 is the Company's first drug candidate utilizing this platform. The agreement requires the Company to make payments to the University of Maryland if RX-21101 or any products from the licensed delivery platform achieve development milestones. As of September 30, 2015, no development milestones have occurred.
- f) In October 2013, the Company signed an exclusive license agreement with the Ohio State Innovation Foundation, for a novel oligonucleotide drug delivery platform, Lipid-Coated Albumin Nanoparticle. The agreement requires the Company to make payments to the Ohio State Innovation Foundation or any products from the licensed delivery platform achieve development milestones. As of September 30, 2015, no development milestones have occurred.

Notes to Condensed Financial Statements (Unaudited)

15. Fair Value Measurements

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, not adjusted for transaction costs. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels giving the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels are described below:

Level Inputs

1— Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible by the Company;

Level 2— Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

Level 3— Unobservable inputs for the asset or liability including significant assumptions of the Company and other

Level 3— Unobservable inputs for the asset or liability including significant assumptions of the Company and other Inputs market participants.

The following tables present assets and liabilities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy. There have been no changes in the methodologies used at September 30, 2015 and December 31, 2014.

	Fair Value Measurements at September 30, 2015						
		Total		Level 1	Level 2		Level 3

The fair value of the Company's Level 2 marketable securities is determined by using quoted prices from independent pricing services that use market data for comparable securities in active or inactive markets. A variety of data inputs, including benchmark yields, interest rates, known historical trades and broker dealer quotes are using with pricing models to determine the quoted prices.

REXAHN PHARMACEUTICALS, INC.

Notes to Condensed Financial Statements (Unaudited)

The fair value methodology for the warrant liabilities is disclosed in Note 12.

The carrying amounts reported in the financial statements for cash and cash equivalents (Level 1), prepaid expenses and other assets, and accounts payable and accrued expenses approximate fair value because of the short term maturity of these financial instruments.

The following table sets forth a reconciliation of changes in the nine months ended September 30, 2015 and 2014 in the fair value of the liabilities classified as Level 3 in the fair value hierarchy:

	Warrant Liabilities
Balance at January 1, 2015	\$ 3,768,351
Additions	-
Unrealized gains, net	(2,282,476)
Transfers out of level 3	(9,378)
Balance at September 30, 2015	\$ 1,476,497
	Warrant Liabilities
Balance at January 1, 2014	\$ 5,034,058
Additions	3,691,429
Unrealized losses, net	6,793,765
Transfers out of level 3	(10,137,243)
Balance at September 30, 2014	\$ 5,382,009

Additions consist of the fair value of warrant liabilities upon issuance. Transfers out of Level 3 for warrant liabilities consist of warrant exercises, where the liability is converted to additional paid-in capital upon exercise. The Company's policy is to recognize transfers in and transfers out as of the actual date of the event or change in circumstance that caused the transfer.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OVERVIEW

The following discussion should be read in conjunction with the unaudited condensed financial statements and notes thereto set forth in Item 1 of this Quarterly Report on Form 10-Q and the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Except for the historical information contained herein, the matters discussed in this Quarterly Report on Form 10-Q may be deemed to be forward-looking statements that involve risks and uncertainties. We make such forward-looking statements, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. In this Quarterly Report on Form 10-Q, words such as "believe," "estimate," "expect," "anticipate," "may," "intend" and other similar expressions, are intended to identify forward-looking statements. We caution that forward-looking statements are based largely on our expectations, and are subject to a number of known and unknown risks and uncertainties that are subject to change based on factors that are, in many instances, beyond our control. Actual results, performance or achievements may differ materially from those contemplated, expressed, or implied by the forward-looking statements.

Although we believe that the expectations reflected in our forward-looking statements are reasonable as of the date we make them, actual results could differ materially from those currently anticipated due to a number of factors, including risks relating to:

- our understandings and beliefs regarding the role of certain biological mechanisms and processes in cancer;
- · our drug candidates being in early stages of development, including in pre-clinical development;
- · our ability to initially develop drug candidates for orphan indications to reduce the time-to-market and take advantage of certain incentives provided by the U.S. Food and Drug Administration;
- · our ability to transition from our initial focus on developing drug candidates for orphan indications to candidates for more highly prevalent indications;
- our ability to successfully and timely complete clinical trials for our drug candidates in clinical development;
- · uncertainties related to the timing, results and analyses related to our drug candidates in pre-clinical development;
- our ability to obtain the necessary U.S. and international regulatory approvals for our drug candidates;
- our reliance on third-party contract research organizations and other investigators and collaborators for certain research and development services;

- our ability to maintain or engage third-party manufacturers to manufacture, supply, store and distribute supplies of our drug candidates for our clinical trials;
- · our ability to form strategic alliances and partnerships with pharmaceutical companies and other partners for sales and marketing of certain of our product candidates;
- · demand for and market acceptance of our drug candidates;
- the scope and validity of our intellectual property protection for our drug candidates and our ability to develop our candidates without infringing the intellectual property rights of others;
- · our lack of profitability and the need for additional capital to operate our business; and
- other risks and uncertainties, including those set forth herein and in our Annual Report on Form 10-K under the caption "Risk Factors" and those detailed from time to time in our filings with the Securities and Exchange Commission.

These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

We are a clinical stage biopharmaceutical company dedicated to the discovery, development and commercialization of innovative new treatments for cancer and other serious medical conditions. Our mission is to discover and develop new medicines for diseases that have significant unmet medical needs and no effective cures, particularly high-mortality cancers. Our pipeline includes one oncology candidate currently in Phase II clinical trials, two oncology candidates currently in Phase I clinical trials, other compounds in preclinical development, and two drug candidates that are not being actively developed. Our strategy is focused on building a significant product pipeline of innovative drug candidates that we will commercialize independently or with partners. We intend to initially develop drug candidates for cancers that are orphan indications and then expand into more highly prevalent cancers.

Since our inception, our efforts and resources have been focused primarily on developing our pharmaceutical technologies, raising capital and recruiting personnel. We have no product sales to date, and we will not generate any product sales until we receive approval from the U.S. Food and Drug Administration (the "FDA") or equivalent foreign regulatory bodies to begin selling our pharmaceutical candidates. Our major sources of working capital have been proceeds from various private and public financings, and licensing and collaboration agreements with our strategic investors and partners.

Recently Issued Accounting Standards

See Note 2 — Recent Accounting Pronouncements Affecting the Company to the Condensed Financial Statements for a discussion of recent accounting pronouncements.

Results of Operations

Comparison of the Three and Nine Months Ended September 30, 2015 and September 30, 2014

Total Revenues

We had no revenues for the three and nine months ended September 30, 2015 or 2014.

General and Administrative Expenses

General and administrative expenses consist primarily of salaries and related expenses for executive, finance and other administrative personnel, recruitment expenses, professional fees and other corporate expenses, including business development, investor relations and general legal activities.

General and administrative expenses increased \$237,782, or 18.0%, to \$1,554,748 for the three months ended September 30, 2015 from \$1,316,966 for the three months ended September 30, 2014. General and administrative expenses increased \$45,285, or 1.0%, to \$4,664,300 for the nine months ended September 30, 2015 from \$4,619,015 for the nine months ended September 30, 2014. The year over year increase is primarily attributable to increases in professional fees, insurance and personnel expenses.

Research and Development Expenses

Research and development expenses consist primarily of salaries and related personnel costs, fees paid to consultants and outside service providers for laboratory development and other expenses relating to the design, development, testing, and enhancement of our drug candidates. We expense our research and development costs as they are incurred.

Research and development expenses increased \$1,279,067, or 70.1%, to \$3,103,807 for the three months ended September 30, 2015, from \$1,824,740 for the three months ended September 30, 2014. Research and development expenses increased \$4,434,182, or 92.4%, to \$9,231,903 for the nine months ended September 30, 2015, from \$4,797,721 for the nine months ended September 30, 2014. The increase is attributable to the advancement of our drug candidates. During the three and nine months ended September 30, 2015, we incurred additional clinical trial and drug manufacturing costs as we have advanced our clinical trials for Archexin, RX-3117 and Supinoxin. The increase is also partially attributable to an increase in personnel expenses.

The table below summarizes the approximate amounts incurred on each of our research and development projects for the three and nine months ended September 30, 2015 and 2014:

				Septem	e months ended ember 30, 2014			
Clinical Candidates:								
Archexin	\$	231,300	\$	184,800	\$	1,312,800	\$	772,600
RX-3117		1,149,700		471,100		3,354,600		1,449,300
Supinoxin		851,200		545,300		1,929,200		891,100
Preclinical, Personnel and Overhead:		871,607		623,540		2,635,303		1,684,721
Total	\$	3,103,807	\$	1,824,740	\$	9,231,903	\$	4,797,721

Interest Income

Interest income decreased \$11,140 or 32.0% to \$23,724 for the three months ended September 30, 2015 from \$34,864 for the three months ended September 30, 2014. Interest income decreased \$23,864 or 22.7% to \$81,326 for the nine months ended September 30, 2015 from \$105,190 for the nine months ended September 30, 2014. The decrease is primarily attributable to lower aggregate balances of cash, cash equivalents, and marketable securities for the three and nine months ended September 30, 2015 compared to the three and nine months ended September 30, 2014.

Unrealized Gain (Loss) on Fair Value of Warrants

Our warrants are recorded as liabilities at fair value, and the warrants are valued using a lattice model. Changes in the fair value of warrants are recorded as an unrealized gain or loss in our statement of operations. During the three months ended September 30, 2015 and 2014, we recorded unrealized gains on the fair value of our warrants of \$608,301 and \$1,201,394 respectively. During the nine months ended September 30, 2015 and 2014, we recorded unrealized gains (losses) on the fair value of our warrants of \$2,282,476 and \$(6,793,765) respectively. Estimating fair values of warrants requires the development of significant and subjective estimates that may, and are likely to, change over the duration of the warrant with related changes to external market factors. The unrealized loss for the nine months ended September 30, 2014 primarily resulted from an increased stock price of the underlying common stock at September 30, 2014 and on the dates during the nine months ended September 30, 2014 when warrant holders exercised their warrants.

Financing Expense

We incurred \$206,172 of financing expenses during the nine months ended September 30, 2014 related to our registered direct offering in January 2014. We did not incur financing expenses for the three and nine months ended September 30, 2015, or during the three months ended September 30, 2014.

Net Loss

As a result of the above, net loss for the three and nine months ended September 30, 2015 was \$4,026,530 and \$11,532,401 or \$0.02 and \$0.06 per share, respectively, compared to \$1,905,448 and \$16,311,483 or \$0.01 and \$0.09 per share, for the three and nine months ended September 30, 2014, respectively.

Research and Development Projects

Research and development costs are expensed as incurred. These costs consist primarily of salaries and related personnel costs, costs to acquire pharmaceutical products and product rights for development and amounts paid to contract research organizations, hospitals and laboratories for the provision of services and materials for drug development and clinical trials. Costs incurred in obtaining the license rights to technology in the research and development stage that have no alternative future uses are expensed as incurred. Our research and development programs are related to our oncology clinical stage drug candidates, Archexin, RX-3117 and Supinoxin, and our pre-clinical stage drug candidate, RX-21101. As we expand our clinical studies, we will enter into additional development agreements. Significant additional expenditures will be required if we complete our clinical trials, start new trials, apply for regulatory approvals, continue development of our technologies, expand our operations and bring our products to market. The eventual total cost of each clinical trial is dependent on a number of uncertainties such as trial design, the length of the trial, the number of clinical sites and the number of patients. The process of obtaining and maintaining regulatory approvals for new therapeutic products is lengthy, expensive and uncertain. Because the successful development of our most advanced drug candidates, Archexin, RX-3117 and Supinoxin, is uncertain, and because RX-21101 is in early-stage development, we are unable to estimate the costs of completing our research and development programs, the timing of bringing such programs to market and, therefore, when material cash inflows could commence from the sale of these drug candidates, if any. If these projects are not completed as planned, our results of operations and financial condition would be negatively affected.

$Archexin^{\mathbb{R}}$

Archexin is a potential best-in-class, potent inhibitor of the protein kinase phosphorylated Akt-1, which is over-expressed in cancer cells and which we believe plays a critical role in cancer cell proliferation, survival, angiogenesis, metastasis and drug resistance. Archexin has received "orphan drug" designation from the FDA, for renal cell carcinoma ("RCC"), glioblastoma, ovarian cancer, stomach cancer and pancreatic cancer. That designation provides tax incentives for clinical research and a waiver of user fees. In addition, a drug that is approved for its orphan-designated use receives seven years of exclusivity after approval, during which the FDA generally cannot approve another product with the same active moiety for the same indication.

In August 2012, we announced top line results of an open label 2-stage Phase IIa clinical trial for Archexin that was designed to assess the safety and efficacy of Archexin in combination with gemcitabine. Gemcitabine is used to treat pancreatic, breast, ovarian and lung cancers. Gemcitabine is a member of a group of chemotherapy drugs known as anti-metabolites. It prevents cells from making DNA and RNA, which stops cell growth and causes cells to die. Stage 1 was the dose-finding portion of the study, and Stage 2 was the dose-expansion portion of the study using the dose identified in Stage 1 administered with gemcitabine. The study enrolled 31 subjects aged 18 to 65 with metastatic pancreatic cancer at nine centers in the United States and India. The primary endpoint was overall survival following four cycles of therapy with a six month follow-up. For those evaluable patients, the study demonstrated that treatment with Archexin in combination with gemcitabine provided a median survival rate of 9.1 months compared to the historical survival data of 5.65 months for standard single agent gemcitabine therapy. The most frequent reported adverse events were constipation, nausea, abdominal pain and pyrexia, regardless of relatedness.

We initiated a Phase IIa clinical proof-of-concept clinical trial of Archexin in January 2014 to study its safety and efficacy in patients with metastatic RCC. In the trial, Archexin will be administered in combination with everolimus (Afinitor®), and will be conducted in two stages. The first stage will be dose ranging, with up to three dose groups with three RCC patients each, to determine the maximal tolerated dose ("MTD") of Archexin in combination with everolimus. Once the MTD has been determined, thirty RCC patients will be randomized to two treatment groups, either Archexin in combination with everolimus or everolimus alone, in a ratio of 2:1. We plan to complete the initial safety component of this study by the end of 2015. Expenses related to Archexin increased for the three and nine months ended September 30, 2015 compared to the same periods in 2014 due to patient enrollment activities.

RX-3117

RX-3117 is a novel, investigational small molecule nucleoside compound. In preclinical models when activated (phosphorylated) by uridine-cytidine kinase 2 ("UCK2"), a protein that is overexpressed in various human cancer cells, RX-3117 is incorporated into DNA or RNA of cells and inhibits both DNA and RNA synthesis, which induces apoptotic cell death of tumor cells. We believe RX-3117 has therapeutic potential in a broad range of cancers including pancreatic, lung, bladder, cervical, non-small cell lung cancer and colon cancer. RX-3117 has received orphan drug designation from the FDA for the treatment of patients with pancreatic cancer. RX-3117 has also been shown in animal models to inhibit the growth of gemcitabine-resistant human cancers and improve overall survival. We completed an exploratory Phase I clinical study of RX-3117 in 2012 that showed a level of oral bioavailability of RX-3117 and no adverse effects reported in the study.

In January 2014, we initiated a Phase Ib clinical trial to study the safety, tolerability, dose-limiting toxicities and MTD of RX-3117 in patients with solid tumors. Secondary endpoints will include characterizing the pharmacokinetic profile of RX-3117 and evaluating the preliminary anti-tumor effects of RX-3117.

Preliminary results from the Phase Ib clinical trial of RX-3117 were presented in September 2015 at the 2015 European Cancer Congress. The results demonstrated that, at the dose levels tested to date, RX-3117 administered orally appeared to be safe and well tolerated with a predictable pharmacokinetic profile. The most frequently reported treatment emergent adverse events were mild to moderate fatigue, gastrointestinal disturbances, anemia, pyrexia, decreased appetite and dehydration.

In addition, preliminary anti-tumor activity was seen in the Phase Ib clinical trial, with evidence of tumor reduction observed in one patient and stable disease observed in five patients persisting from between 112 and 276 days before disease progression occurred.

Patient enrollment has been completed in nine dose groups (30mg, 60mg, 100mg, 150mg, 200mg, 500mg, 1,000mg, 1,500mg and 2,000 mg). Based on the favorable safety and pharmacokinetic profile seen at the highest dose levels, we initiated a dosing schedule modification to increase patients' daily exposure of RX-3117 in the ongoing Phase Ib clinical trial. All newly enrolled patients are now receiving RX-3117 either five or seven times weekly as opposed to three times weekly. We expect that the new dosing paradigm will increase drug exposure, maximizing potential therapeutic activity and enable more rapid determination of the MTD for further clinical study.

Based on the progress of the RX-3117 clinical development program and the level of interest expressed from a number of oncology-focused pharmaceutical companies, we are continuing discussions with multiple companies to explore collaborative business structures in an effort to maximize the potential value of the program. Expenses related to RX-3117 increased for the three and nine months ended September 30, 2015 as compared to the same periods in 2014 primarily due to additional drug manufacturing costs to support continuing enrollment in the clinical trial.

Supinoxin (RX-5902)

Supinoxin is a potential first-in-class small molecule that inhibits the phosphorylation of p68, a protein that we believe plays a key role in cancer growth, progression and metastasis. Phosphorylated p68, which is highly expressed in cancer cells, but not in normal cells, results in up-regulation of cancer-related genes and a subsequent proliferation of cancer cells and tumor growth. Supinoxin selectively blocks phosphorylated p68, thereby decreasing the proliferation or growth of cancer cells. In pre-clinical tissue culture models and in-vivo xenograft models, Supinoxin has demonstrated single-agent tumor growth inhibition, potential synergy with cytotoxic agents and activity against drug resistant cancer cells. In particular, in in-vivo xenograft models of human triple negative breast cancer and pancreatic cancer, treatment with Supinoxin on days one to 20 in mouse models produced a survival benefit beyond 65 days.

In July 2012, we submitted an investigational new drug application ("IND"), to the FDA for Supinoxin. We initiated a Phase I clinical trial in August 2013 to study Supinoxin's safety and efficacy in patients with solid tumors. Patients in nine dose groups (25mg, 50mg, 100mg, 150mg, 225mg, 300mg, 425mg, 575mg, and 775mg) have been enrolled and the MTD of Supinoxin has not yet been reached.

Preliminary results from the Phase I clinical trial of Supinoxin were presented in September 2015 at the 2015 European Cancer Congress.

The results demonstrated that, at the dose levels tested to date, Supinoxin administered orally appeared to be safe and well tolerated with no Grade 3 or Grade 4 adverse events and several unrelated Grade 2 adverse events. The most frequently reported drug related adverse events were mild nausea, vomiting and fatigue. Pharmacokinetic analyses of the current data demonstrate both a predictable and desirable pharmacokinetic profile for an orally-administered route of therapy.

Clinical evidence of single-agent activity of Supinoxin was also observed in 4 patients who showed stable disease persisting from between 255 and 497 days as of September 14, 2015. At that time, three of the four patients exhibiting stable disease remained on active treatment and continue to be followed in the study.

Based on the favorable safety and pharmacokinetic profile seen at the highest dose levels, we initiated a dosing schedule modification to increase patients' daily exposure of Supinoxin. All newly enrolled patients are now receiving Supinoxin either three or five times weekly as opposed to once weekly earlier in the trial. We anticipate that the new dosing paradigm will increase drug exposure, maximizing potential therapeutic activity and enable more rapid determination of the MTD for further clinical study.

Based on the progress of the Supinoxin clinical development program and the level of interest expressed from a number of oncology-focused pharmaceutical companies, we are continuing our discussions with multiple companies to explore collaborative business structures in an effort to maximize the potential commercial value of the program. Expenses related to Supinoxin increased for the three and nine months ended September 30, 2015 compared to the same periods in 2014 primarily due to continuing enrollment and drug manufacturing costs for the clinical trial.

Pre-clinical Pipeline

RX-21101 is in a pre-clinical stage of development, and in June 2015, was selected by the National Cancer Institute's Nanotechnology Characterization Laboratory for its preclinical characterization program to facilitate the advancement of RX-21101 towards human clinical trials. Expenses related to our pre-clinical candidates decreased for the three and nine months ended September 30, 2015 compared to the same period in 2014 primarily as a result of the timing of costs incurred for ongoing preclinical studies.

Research and Development Process

We have engaged third-party contract research organizations and other investigators and collaborators, such as universities and medical institutions, to conduct our pre-clinical studies, toxicology studies and clinical trials. Engaging third-party contract research organizations is typical practice in our industry. However, relying on such organizations means that the clinical trials and other studies described above are being conducted at external locations and that the completion of these trials and studies is not within our direct control. Trials and studies may be delayed due to circumstances outside our control, and such delays may result in additional expenses for us.

Liquidity and Capital Resources

Cash Flows

Cash used in operating activities was \$12,944,191 for the nine months ended September 30, 2015. The operating cash flows during the nine months ended September 30, 2015 reflect a net loss of \$11,532,401, and a net decrease of cash components of working capital and other non-cash charges totaling \$1,411,790. Cash used in operating activities was \$8,129,391 for the nine months ended September 30, 2014, which reflects a net loss of \$16,311,483, including an unrealized loss on fair value of warrants of \$6,793,765 and a net increase of cash components of working capital and other non-cash charges totaling \$1,388,327.

Cash provided by investing activities was \$13,831,676 for the nine months ended September 30, 2015, which consisted of \$14,625,000 from the redemption of marketable securities, offset by \$740,825 and \$52,499 for the purchases of marketable securities and equipment, respectively. Cash used in investing activities for the nine months ended September 30, 2014 was \$20,427,450, which consisted of \$20,555,926 and \$30,154, for the purchases of marketable securities and equipment, respectively, offset by a decrease in restricted cash equivalents of \$158,630.

Cash provided by financing activities was \$1,736,657 for the nine months ended September 30, 2015 which consisted of \$1,005,715 in proceeds from the sale of common stock, and \$708,617 and \$22,325, in proceeds from the exercise of stock options and warrants, respectively. Cash provided by financing activities was \$24,840,470 for the nine months ended September 30, 2014, which consisted of net proceeds of \$18,634,247 from our registered direct public offering in January 2014, \$258,955 from the exercise of stock options and \$5,947,268 from the exercise of warrants.

We will need to raise additional capital through public or private equity or debt offerings or through arrangements with strategic partners or other sources in order to continue to develop our drug candidates. There can be no assurance that additional capital will be available when needed or on terms satisfactory to us, if at all. If we are not able to raise sufficient additional capital, we will have to reduce our research and development activities. We will first reduce research and development activities associated with our pre-clinical compounds. To the extent necessary, we will then reduce our research and development activities related to some or all of our clinical drugs.

At Market Issuance Sales Agreement

On March 16, 2015, we entered into an at market ("ATM") issuance sales agreement (the "Sales Agreement") with MLV & Co. LLC ("MLV"), pursuant to which we may issue and sell shares of our common stock having an aggregate offering price of up to \$40 million from time to time, at our option, through MLV as our sales agent, subject to certain terms and conditions. Any shares sold will be sold pursuant to our effective shelf registration statement on Form S-3 (File No. 333-196255), as supplemented by a prospectus supplement dated March 16, 2015. We will pay MLV a commission of 3.0% of the gross proceeds of the sale of any shares sold through MLV. As of September 30, 2015, we have sold 1,407,072 shares of common stock pursuant to the Sales Agreement for gross proceeds of \$1,042,573 at a weighted average price of \$0.7410 per share. Net proceeds to us were \$1,005,715 after deducting commissions and other transaction costs. There were no ATM transactions in the three months ended September 30, 2015. We are not obligated to make any sales under the Sales Agreement and no assurance can be given that we will sell any additional shares under the Sales Agreement, or, if we do, as to the price or amount of shares that we will sell, or the dates on which any such sales will take place.

Contractual Obligations

We have a variety of contractual obligations, as more fully described in our annual report on Form 10-K for the year ended December 31, 2014. These obligations include, but are not limited to, contractual obligations in connection with license agreements (including related milestone payments), lease payments, employee compensation and incentive program expenses, and contracts with various vendors for research and development services. As of September 30, 2015, the total estimated cost to complete our contracts with vendors for research and development services had increased to approximately \$10,180,000 under the terms of the applicable agreements. All of these agreements may be terminated by either party upon appropriate notice as stipulated in the respective agreements.

Current and Future Financing Needs

We have incurred negative cash flow from operations since we started our business. We have spent, and expect to continue to spend, substantial amounts in connection with implementing our business strategy, including our planned product development efforts, our clinical trials and our research and development efforts. We will need to raise additional capital through public or private equity or debt offerings or through arrangements with strategic partners or other sources in order to continue to develop our drug candidates. There can be no assurance that additional capital will be available when needed or on terms satisfactory to us, if at all. If we are not able to raise sufficient additional capital, we will have to reduce our research and development activities. We believe that our cash, cash equivalents, and marketable securities will be sufficient to cover our cash flow requirements for our current activities for at least the next 12 months.

The actual amount of funds we will need to operate is subject to many factors, some of which are beyond our control. These factors include the following:

- the progress of our product development activities;
- the number and scope of our product development programs;
- the progress of our pre-clinical and clinical trial activities;

- the progress of the development efforts of parties with whom we have entered into collaboration agreements;
- · our ability to maintain current collaboration programs and to establish new collaboration arrangements;
- the costs involved in prosecuting and enforcing patent claims and other intellectual property rights; and
- the costs and timing of regulatory approvals.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements or holdings in variable interest entities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For quantitative and qualitative disclosures about market risk, refer to "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the year ended December 31, 2014. Our exposures to market risk have not changed materially since December 31, 2014.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer ("CEO") along with our Chief Financial Officer ("CFO"), of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on that evaluation, the CEO along with the CFO concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Our management, including the CEO and CFO, does not expect that our disclosure controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal controls over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting

PART II. Other Information

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Pursuant to a consulting agreement, we issued 75,000 shares of common stock on July 1, 2015 to a privately held investor relations firm in consideration for investor relations services. The shares of common stock were not registered under the Securities Act of 1933, as amended (the "Securities Act") pursuant to the exemptions from registration requirements provided by Section 4(a)(2) of the Securities Act, as a transaction not involving a public offering.

Item 6. Exhibits.

Exhibit No	<u>Description</u>
31.1	Certification of Chief Executive Officer pursuant to Rules 13a-14(a) / 15d-14(a)
31.2	Certification of Chief Financial Officer pursuant to Rules 13a-14(a) / 15d-14(a)

CERTIFICATION PURSUANT TO RULES 13A-14(A) AND 15D-14(A)

- I, Peter D. Suzdak, certify that:
- 1. I have reviewed this Quarterly Report on Form 10-Q of Rexahn Pharmaceuticals, Inc.;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3 Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO 18 U.S.C. SECTION 1350

SECTION 1350 CERTIFICATION*

In connection with the Quarterly Report of Rexahn Pharmaceuticals, Inc. (the "Company") on Form 10-Q for the quarter ended September 30, 2015 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Peter D. Suzdak, Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: November 2, 2015 By: /s/ Peter D. Suzdak

Peter D. Suzdak, Chief Executive Officer

* This Certification is being furnished as required by Rule 13a-14(b) under the Securities Exchange Act of 1934 (the "Exchange Act") and Section 1350 of Chapter 63 of Title 18 of the United States Code, and shall not be deemed "filed" for purposes of Section 18 of the Exchange Act or otherwise subject to the liability of that section. This Certification shall not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except as otherwise stated in such filing.

A signed original of this written statement required by 18 U.S.C. § 1350 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.
